

EUROPEAN TECHNICAL COATINGS CONGRESS

FATIPEC Congress

The European Technical Coatings Congress ETCC is organized every two years. Speakers from Europe and Overseas present lectures during this scientifically top-level event.

Main topics of the congress are:

- Scientific progress in the field of chemistry, composition and technology of coatings, printing inks and related polymers;
- Newest research achievements in coatings;
- New manufacturing process, products characteristics, testing methodology;
- Application techniques and equipment;
- Raw materials, production equipment, installations;
- Analytical science and practice.

FATIPEC European Scientific Committee - ESC

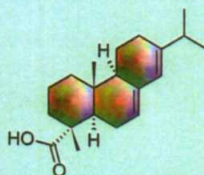

The European Scientific Committee (ESC) is composed of scientific experts in their field. The ESC has to take care of the scientific, technological and technical level of FATIPEC, for the selection of qualified lecturers for the congress and to provide technical information for FATIPEC publications and promotions.

FATIPEC offers you

FATIPEC as a broad platform for scientific, technical and practical activity in the field of coatings, printing inks and related polymers, provides information for professional education, training, research, production and offers contacts with universities, research institutes and manufacturers.

Being a member of a country association you are automatically in the large FATIPEC net.

Contact your local Association Board or the FATIPEC secretariat directly if you search for specific information.

Federation of Associations of Technicians for Industry of Paints in European Countries

www.fatipec.com

What is FATIPEC ?

FATIPEC is Federation of associations for technicians from the continental European paints, varnishes, enamels and printing inks industry.

Federation was founded in 1950 in Geneva by the Paint and Varnishes Technicians National Associations of Belgium, France, Italy, The Netherlands and Switzerland.

FATIPEC-Members

The national associations in 11 countries:

Belgium: Association of Technicians from the Paint and Allied Industries (ATIPIC), Czech Republic: Group for Paints, Pigments and Resins of the Czech Chemical Society (CCSPPR), **France:** Association Française des Techniciens des Peintures, Vernis, Encres d'Imprimerie, Colles et Adhésifs (AFTPVA), Germany: GDCh- Fachgruppe Lackchemie und Verband der Ingenieure des Lack- und Fabenfaches (VILF), **Greece:** Greek Chemists Association, **Division: Paints, Varnishes, Inks (GCA)**, Hungary: Hungarian Chemical Society (Magyar Kémikusok Egyesülete, MKE), Varnish and Paint Section, **Italy:** Associazione Italiana Tecnici Industrie Vernici e Affini (AITIVA), The Netherlands: Nederlandse Vereniging van Verftechnici (NVVT), **Poland:** Polish Association of Chemical Engineers (SITPChem), Russia: Russian Coating Scientific Association (RCSA), **Switzerland:** Schweizerische Vereinigung der Lack- und Farben-Chemiker (SVLFC).

FATIPEC Objectives

- to develop and to disseminate a wide scope of scientific and technological knowledge concerning production, formulations, application, development of coatings and inks understood in their widest meaning;
- to stimulate research and exchange of ideas and expertises among its members, and to publish the results of scientific and technological works worth the interest of the Coatings Industry;
- to support any activity that will contribute to develop international cooperation between the Coatings scientists and technicians worldwide, as well as with scientists from public or private organizations like Universities and Institution/Research Centers;
- to organize an International Congress, which specialists, scientists, technicians and researchers of the Coatings and allied industries worldwide attend and/or present the results of their works;
- to create cooperation or membership in other scientific organisations for defined goals;
- to provide a platform for communication in the coating world;
- to promote and to strengthen friendship and contact between all its members;
- to integrate researchers and promote young scientists in the field of technical and technological progress.

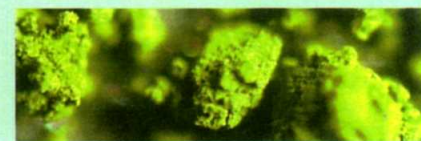

FATIPEC Worldwide Activity

FATIPEC is an active member of Coatings Societies International (CSI), global federation of associations of: USA, Japan, UK, Australia, New Zealand, Scandinavian Countries (Denmark, Finland, Norway, Sweden), Argentina and South American Countries (Ecuador, Peru, Columbia, Venezuela).

FATIPEC Management

The Board of FATIPEC is composed of 12 members as delegates representing affiliated member associations, the President, the General Secretary and the Treasurer. The Board takes decisions for any matters concerning the running of the FATIPEC Federation.

The FATIPEC Executive Committee is appointed by the FATIPEC Board, working on an ongoing basis, it prepares the main tasks and decisions for acceptance and implementation by members of the federation.

FATIPEC contributes to the future of the Europe chemistry-site!
